Independent Auditors' Review Report

To the Board of Directors Apex International Co., Ltd.:

Introduction

We have reviewed the accompanying consolidated balance sheets of Apex International Co., Ltd. and its subsidiaries ("the Group") as of September 30, 2022 and 2021, and the related consolidated statements of comprehensive income for the three months and nine months ended September 30, 2022 and 2021, as well as the changes in equity and cash flows for the nine months ended September 30, 2022 and 2021, and notes of the consolidated financial statements, including a summary of significant accounting policies. Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Accounting Standard 34, "Interim Financial Reporting" endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China. Our responsibility is to express a conclusion on the consolidated financial statements based on our reviews.

Scope of Review

We conducted our reviews in accordance with Statement of Auditing Standard 65, "Review of Financial Information Performed by the Independent Auditor of the Entity". A review of the consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with the generally accepted auditing standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our reviews, nothing has come to our attention that causes us to believe that the accompanying consolidated financial statements do not present fairly, in all material respects, the consolidated financial position of the Group as of September 30, 2022 and 2021, and of its consolidated financial performance for the three months and nine months ended September 30, 2022 and 2021, as well as its consolidated cash flows for the nine months ended September 30, 2022 and 2021 in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Accounting Standard 34, "Interim Financial Reporting" endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China.

The engagement partners on the reviews resulting in this independent auditors' review report are Chun-I Chang and Chun-Hsiu Kuang.

The independent auditors' review report and the accompanying consolidated financial statements are the English translation of the Chinese version prepared and used in the Republic of China. APEX INTERNATIONAL CO., LTD. AND SUBSIDIARIES

Notes to the Consolidated Financial Statements

September 30, 2022 and 2021

(Expressed in Thousands of New Taiwan Dollars, Unless Otherwise Specified)

(1) Company history

Apex International Co., Ltd. (the "Company") was established in the Cayman Islands on October 28, 2009. The main purpose of the establishment, which resulted from organizational restructuring, was to apply for emerging stock registration on the Taipei Exchange (TPEx) in the Republic of China. After restructuring, the Company became the holding company of Apex Circuit (Thailand) Co., Ltd. ("APT"), which is located in Thailand, and became a listed company on the TPEx in the Republic of China ("R.O.C.") on October 18, 2011. The Company then changed its listing from the TPEx to the Taiwan Stock Exchange ("TWSE") in the Re.O.C. on September 8, 2015. APT mainly manufactures and sells electronic printed circuit boards. For the related information, please refer to note 14 of the consolidated financial statements. The Company and its subsidiaries are hereinafter referred to as the Group.

(2) Approval date and procedures of the consolidated financial statements:

The consolidated financial statements were authorized for issuance by the Board of Directors on November 10, 2022.

(3) New standards, amendments and interpretations adopted:

(a) The impact of adopting the International Financial Reporting Standards ("IFRSs") endorsed by the Financial Supervisory Commission, R.O.C. ("FSC")

The Group has initially adopted the following new amendments, which do not have a significant impact on its consolidated financial statements, from January 1, 2022:

- Amendments to IAS 16 "Property, Plant and Equipment-Proceeds before Intended Use"
- Amendments to IAS 37 "Onerous Contracts-Cost of Fulfilling a Contract"
- Annual Improvements to IFRS Standards 2018–2020
- Amendments to IFRS 3 "Reference to the Conceptual Framework"

(b) The impact of IFRS issued by the FSC but not yet effective

The Group's adoption of the new amendments, effective for annual period beginning on January 1, 2023, are expected to have the following impacts:

(i) Amendments to IAS 12 "Deferred Tax related to Assets and Liabilities arising from a Single Transaction"

The amendments narrowed the scope of the recognition exemption so that it no longer applies to transactions that, on initial recognition, give rise to equal taxable and deductible temporary differences. The Group may need to recognize equal deferred income tax assets and deferred income tax liabilities and is evaluating the impact of its initial adoption of the amendments on its consolidated financial position.

(ii) Amendments to IAS 1 "Disclosure of Accounting Policies"

The key amendments to IAS 1 include:

- requiring companies to disclose their material accounting policies rather than their significant accounting policies;
- clarifying that accounting policies related to immaterial transactions, other events or conditions are themselves immaterial and as such need not be disclosed; and
- clarifying that not all accounting policies that relate to material transactions, other events or conditions are themselves material to a company's financial statements.

The Group is continuing on evaluating and reviewing the accounting policies that should be disclosed in the consolidated financial statements to comply with the amendment.

(iii) Other amendments

The following amendments are not expected to have a significant impact on the Group's consolidated financial statements.

• Amendments to IAS 8 "Definition of Accounting Estimates"

(c) The impact of IFRS issued by IASB but not yet endorsed by the FSC

The following new and amended standards, which may be relevant to the Group, have been issued by the International Accounting Standards Board (IASB), but have yet to be endorsed by the FSC:

| Standards or Interpretations | Content of amendment | Effective date per IASB |
|---|--|----------------------------|
| Amendments to IAS 1 "Classification of Liabilities as Current or Non-current" | Under existing IAS 1 requirements, companies classify a liability as current when they do not have an unconditional right to defer settlement for at least 12 months after the reporting date. The amendments has removed the requirement for a right to be unconditional and instead now requires that a right to defer settlement must exist at the reporting date and have substance. | January 1, 2024 |
| | The amendments clarify how a company classifies a liability that can be settled in its own shares $-e.g.$ convertible debt. | |
| Amendments to IAS 1 "Non- current Liabilities with Covenants" | After reconsidering certain aspects of the 2020 IAS1 amendments, the new amendments clarify that only covenants with which a company must comply on or before the reporting date will affect the classification of a liability as current or non-current. Covenants with which the company must comply after the reporting date (i.e. future covenants) do not affect the classification a liability at that date. However, when non- current liabilities are subject to future covenants, companies will now need to disclose information to help users of their financial statements understand the risk that those liabilities could become repayable within 12 months after the reporting date. | |

The Group is evaluating the impact of its initial adoption of the abovementioned standards or interpretations on its consolidated financial position and consolidated financial performance. The results thereof will be disclosed when the Group completes its evaluation.

(r) Financial instruments

Except for the following, there were no significant changes in the credit risk and interest rate risk the Group was exposed to. Please refer to note 6(t) of the 2021 consolidated financial statements for related information.

(i) Credit risk

1) Risk exposure

The book value of financial assets represents the maximum risk exposure.

2) Concentration of credit risk

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, the management also considers the statistical information on the Group's customer base, including the default risk of the industry and country in which customers operate. The Group's accounts receivable are obviously concentrated on three main customers, which accounted for 46%, 38% and 42% of the total amount of notes and accounts receivable as of September 30, 2022, December 31, 2021, and September 30, 2021, respectively. As of September 30, 2022, December 31, 2021, and September 30, 2021, the Group's accounts receivable concentrated on three main customers were \$2,056,942 thousand, \$1,664,796 thousand and \$1,550,302 thousand, respectively.

3) Credit risk of accounts receivable

Please refer to note 6(c) for information on credit risk of accounts receivable; and note 6(d) for details of other receivables. All of other receivables are considered to have low risk, and thus, the impairment provision recognized during the period was limited to 12 months expected losses.

The Group does not expect the cash flows included in the maturity analysis to occur significantly earlier or at significantly different amounts.

(iii) Currency risk

1) Currency risk exposure

The Group's significant exposure to foreign currency risk was as follows:

| | September 30, 2022 | | | De | cember 31, 202 | 21 | September 30, 2021 | | |
|-----------------------|--------------------|------------------|-----------|---------------------|------------------|-----------|---------------------|------------------|-----------|

2) Sensitivity analysis

The Group's exposure to foreign currency risk arises from the translation of the foreign currency exchange gains and losses on cash and cash equivalents, trade and other receivables, loans and borrowings, and trade and other payables that are denominated in foreign currency.

A 5% strengthening of the NTD and THB against the USD as at September 30, 2022 and 2021, would have increased (decreased) net profit before tax for the nine months ended September 30, 2022 and 2021, by \$(108,800) thousand and \$11,000 thousand, respectively. The analysis assumes that all other variables remain constant, and is performed on the same basis for 2021.

3) Exchange gains and losses on monetary items

Due to the numerous types of functional currency of the Group, the Group discloses its exchange gains and losses of monetary items aggregately. The Group's exchange gains (losses), including realized and unrealized, were \$64,923 thousand, \$(61,321) thousand, \$28,142 thousand and \$(93,352) thousand for the three months and the nine months ended September 30, 2022 and 2021, respectively.

(iv) Interest rate risk

Please refer to the notes on liquidity risk management and interest rate exposure of the Group's financial assets and liabilities.

The following sensitivity analysis is based on the exposure to interest rate risk for derivative and non-derivative financial instruments on the reporting date.

For variable-rate instruments, the sensitivity analysis assumes the variable-rate liabilities are outstanding for the whole year ended at the reporting date. The Group internally reported the increases / decreases in interest rates and the exposure to changes in interest rates of 0.25% to the Group's key management so as to allow key management to assess the reasonableness of the changes in interest rates.

If the interest rate had increased / decreased by 0.25%, the Group's net income would have decreased / increased by \$16,637 thousand and \$10,486 thousand for the nine months ended September 30, 2022 and 2021, respectively, with all other variable factors remaining constant. This was mainly due to the Group's borrowing at variable rates.

(v) Fair value information

1) Categories and fair value of financial instruments

The Group's financial assets at fair value through profit or loss are measured at fair value on a recurring basis. The carrying amount and fair value of the Group's financial assets and liabilities, including the information on fair value hierarchy were as follows; however, except as described in the following paragraphs, for financial instruments not measured at fair value whose carrying amount is reasonably close to the fair value, and lease liabilities, disclosure of fair value information is not required:

2) Valuation techniques and assumptions used in fair value determination

- a) Non-derivative financial instruments
 - i) The carrying amounts of the following short-term financial instruments approximate their fair values because of their short maturities and payment request or payment amount of future cash flow will not be changed due to timing difference, and the book value shall be estimate by the fair value's basis. This method applys to: cash and cash equivalents, notes and accounts receivable and payable, other receivables and payables, refundable deposits, other financial assets, short-term loans, payables for machinery and equipment.
 - Fair value of long-term loans, lease liabilities, and long-term payable are estimated using the present value of future cash flows discounted by the interest rates the Group may obtain for similar loans and lease payable. However, long-term loans are recognized at its book value because most of it has floating rates. Lease liabilities are calculated based on the fixed rate agreed in the lease contract or incremental borrowing rate. Long-term payable is calculated based on the weighted-average cost of capital (WACC). There were no significant differences between book value and discounted present value. Thus, long-term payable is recognized at book value.
- b) Derivative financial instruments

Forward exchange contracts were usually estimated by the current forward exchange rates of the transaction banks.
